

# HABITAT TREASURE HUNT

a nature walk challenge

Keep tally of how many of each of these habitat features you spot, using the blue circles

## Tree hollows

Only form in old trees

Which  
are the  
**oldest  
trees**  
here?

How can  
we tell?

**Logs  
and  
stags**

Which  
animals  
use  
them?

Different  
animals have  
different  
preferences  
for hollow sizes

## Soft bark

See any  
scratches or  
'scribbles'?

## Leaf shapes

which ones  
are longest?  
roundest?  
most munched?  
or smell when  
crushed?

## Flowers

look for colours,  
shape, smell,  
size

## Fruit, seeds or nuts

## Rocks

Animals may bask on top  
or hide underneath

## Rough bark

look for signs  
of animals  
living here
